

## Recommended Programs

These programs are recommended by Solutio to help you update your web pages. These are free programs that can be downloaded to any PC.

To begin, log onto to [www.parishportal.com](http://www.parishportal.com).

Once logged on, click on Files

This table will show in the new window. Click on any of the files in blue to navigate to the site where you can download them to your PC.

The screenshot shows a table with two columns: "Download" and "Description". The table is enclosed in a red border. Red arrows point from the text above to the "Download" column of the table. The table contains the following data:

| Download                          | Description  |
|-----------------------------------|--|
| <a href="#">Google Chrome</a>     | A fast and secure browser.                         |
| <a href="#">Picasa</a>            | Allows you to easily and quickly resize images.    |
| <a href="#">PDFCreator</a>        | Creates PDFs from any document that can be printed |
| <a href="#">Crossloop</a>         | Remote assistance tool                             |
| <a href="#">Gimp Image Editor</a> | Edits image files.                                 |
| <a href="#">Audacity</a>          | Edits sound files.                                 |
| <a href="#">Mp3 codec</a>         | Needed to for Audacity to make mp3s                |
