ST. MICHAEL'S BRAIN TEASERS

TEASER THE FIRST:

Three people check into a hotel. They pay \$30 to the manager and go to their room. The manager finds out that the room rate is \$25 and gives \$5 to the bellboy to return. On the way to the room, the bellboy reasons that \$5 would be difficult to share among three people, so he pockets \$2 and gives \$1 to each person. Now, each person paid \$10 and got back \$1. So they paid \$9 each, totalling \$27. The bellboy has \$2, totalling \$29. Where is the remaining dollar?
