## SOLUTIONS

www.wordgamesfor Catholics.com

**FIRST:**

If Georgina is telling the truth, then Coleen is lying. If Coleen is lying, then Gayla is his sister. If Gayla is his sister, then she's lying about Ana lying. If Ana isn't lying, then Georgina is lying, which would contradict the fact that Georgina's telling the truth. That means Georgina is lying and could be his girlfriend or sister. Ana must be telling the truth since Georgina has to be lying. So Gayla must also be lying, and Coleen is telling the truth. Since Coleen's telling the truth, Gayla isn't his sister and must be his girlfriend. Georgina is the other liar, so she must be his sister.

**Answer: Georgina**
